Report Spam Texts
How to Use 7726 (SPAM)

DAN MEUSER
Serving PENNSYLVANIA's 9th District
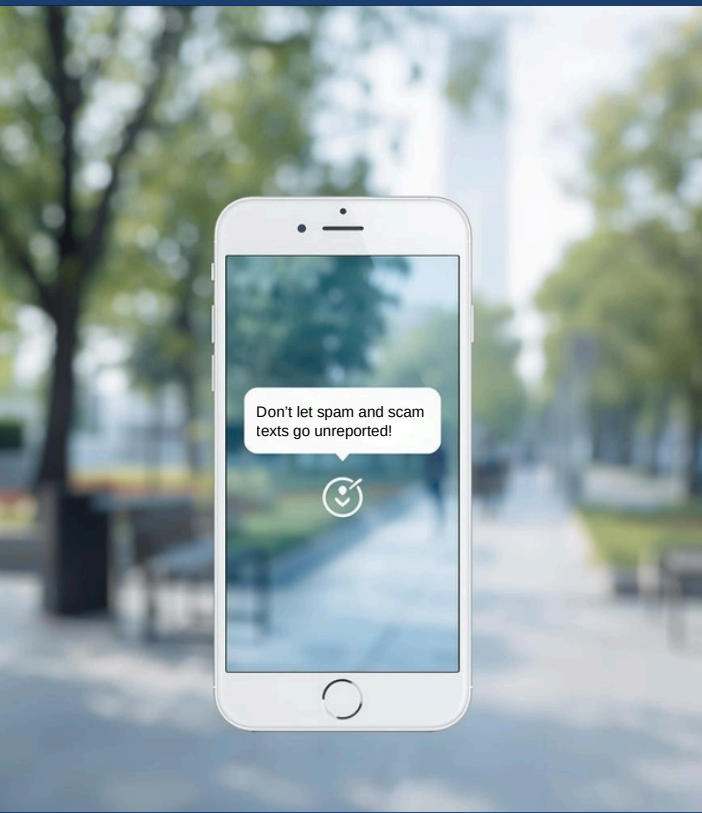

Forward the unwanted message to the number "7726" and then follow the prompts, which will involve replying with the original sender's number. If you can't use the forward option, copy the message, start a new text to 7726, paste the message, and send it.

This service, which spells "SPAM", alerts your wireless provider to investigate and help protect other users.

Forwarding on iPhone

- Long-press the message bubble you want to report.
- Tap more.
- Tap the forward arrow (a curved arrow) in the bottom-right corner.
- Enter 7726 in the "to" field.
- Press the send button.

Forwarding on Android

- Tap and hold the message bubble you want to report.
- Tap the three vertical dots in the upper-right corner and select forward.
- Enter 7726 in the recipient field.
- Tap send.

If you can't forward

- Long-press: the message you want to report and select copy.
- Create a new message to 7726.
- Paste the copied text into the message field.
- Send the message.

After sending the message

- You will receive an automated reply from 7726 asking for the original sender's number.
- Reply to the 7726 text with the phone number from the original spam message.
- You should receive a final message confirming that your report has been received.
